

# TC TWINDRIVE AVANT

## TRANSPLANTER

### TRANSPLANTER-TC

With 12 cups rotating distributor

- Use: semiautomatic equipment for transplanting seedlings with a conical or pyramid-shaped root ball

All independent modules (from 1 to 6 transplant elements) are fed by 12 cups rotating distributor. Recommended for tobacco, tomato, cabbage, courgette, broccoli, and other similar seedlings.

- Adaptation to the ground and transplanting: with parallelogram arm that keeps the equipment constantly adapted to the ground, always remaining parallel to the surface; with adjusting tie rod for manually adjusting the depth of the furrow; with a knob to regulate the quantity of soil to earth up around the root balls.
